WHAT IS TARRANT'S EFFERVESCENT SELTZ-ER APERIENT, and what are its effects? These are questions which the great American pubic has a right to ask and it has also a right to expect a candid and satisfactory reply. The preparation is a mild and gentle saline caline cathartic, alterative and tonic and is most carefully prepared in the form of a snow white powder, containing all the wonderful medical properties of the far famed Seltzer Springs of

Germany. Of its effects, we would say that those who have tested the preparation are the best judges and they declare over their own signatures, that the preparation will promptly relieve indigestion. Regulate the flow of the bile. Cure every species of headachs. Tranquilize the nervous system. Refresh and invigorate the weak. Mitigate the pangs of Rheumatism .-Neutralize acid in the stomach.
